Society for Range Management

SRM is the professional society committed to conservation through science-based rangeland stewardship

SRM members represent diverse interests including:

- Ecology (rangeland, soil, restoration, vegetation, watershed, etc.)
- Research
- Education
- Wildlife
- Social science
- Ranching and livestock production
- Extension and outreach
- Tribal and private land management
- State and federal agencies
- Others interested in rangeland management and conservation

...and reflect a well-trained and highly motivated group of professionals and rangeland users working with productive, sustainable rangeland ecosystems

Member Benefits:

- Diverse training and professional development opportunities
- Professional networking with rangeland specialists from around the world
- Access to rangeland certification and accreditation programs
- Synthesis and analysis of current rangeland topics
- State of the art rangeland publications and news
- Resources for rangeland education and careers
- Science-based forum for rangeland conservation concerns and policy decisions
- A shared commitment to lifelong learning
- **Sharpen your professional edge**
